

## Languages and Specialist Subject Areas

Last Updated Saturday, 12 April 2008

### German:

Fluent (mother tongue), very good grammar and spelling

Specialist subject areas: railway electrification, power distribution and transmission, waste management and treatment, hydraulic presses, telecommunications, herbal medicine, tourism, water birth

### Spanish:

Fluent, very good grammar and spelling, in South American Spanish good cultural background knowledge as I have been living in Chile since 1997

Specialist subject areas: power distribution and transmission, railway electrification, telecommunications, waste management and treatment, herbal medicine, tourism and water birth

### English:

Fluent, good grammar and spelling.

Specialist subject areas: railway electrification, power distribution and transmission, tourism

### French:

Fluent, good grammar and spelling (first foreign language at University)

Specialist subject areas: herbal medicine, telecommunications, tourism

Latin: Three years at school

Italian: Very basic knowledge

I would also accept to work on other subject areas except for legal texts. An unknown subject area would take me longer to translate the text. I can translate about 10 pages (50 characters/30 lines) a day of known subject area texts.
